

# TC26 CBRS Touch Computer

The ultimate cost-effective touch computer built for small and big business

If you're considering purchasing low-cost mobile phones for your workers, step up to the TC26 CBRS Touch Computer — without stepping up in price. Help your workers access the data they need to act more efficiently. With multiple configurations at different price points, you pay only for the features your workers need. With cellular, CBRS and WiFi, your workers get the comprehensive connectivity options they need to stay connected out in the field and in the office. Powerful complimentary Mobility DNA tools are pre-loaded and ready to use, making it easier to stage, secure and troubleshoot devices; capture and send data to your applications right out of the box; and much more. Plus, the Mobility DNA Enterprise License delivers premium voice capabilities over WiFi and unlocks a powerful data toolkit that takes workforce productivity and device management simplicity to a new level.

## A New Level of Features for a Value-Priced Device

### Lightweight right-sized small design

Lightweight, easy to carry and easy to operate with one hand.

### All the familiarity of Android

Right out of the box, your workers will know how to use the TC26 CBRS, virtually eliminating training. And built-in support for the next Android release provides superior future-proofing.

### Built for business

Waterproof, dustproof, drops to concrete, snow, rain, heat, freezing cold — the TC26 can handle it all. Plus, the display and scanner exit window are fortified with Gorilla Glass.

### Large 5-Inch high definition advanced touchscreen

Get plenty of space to interact with your applications. And the touchscreen is easy to view indoors and outside in bright sunlight.

### All the wireless connections you could ever need

When it comes to wireless, the class-leading TC26 offers it all — WiFi, cellular, Bluetooth, GPS, NFC and CBRS, the newest wireless networking option that enables the creation of private LTE wireless networks to meet specific business needs.

### Zebra's most powerful 'Ultimate Series' platform

Simultaneously run the most demanding applications of today and tomorrow. And the TC26 CBRS is a natural fit for businesses that utilize Zebra's other mobile devices.

### Capture it all with a high resolution 13 MP rear camera

From proof of delivery to a damaged package, completed repair, occasional barcode capture and more, do it all with the integrated autofocus color camera.

### Superior voice quality and functionality

VoLTE delivers superior voice quality over cellular networks, while Zebra's advanced VoWiFi technology, included with the Mobility DNA Enterprise License, delivers superior voice quality over all of your WiFi voice applications — for example, Push-to-Talk Express<sup>1</sup> for basic walkie-talkie style communications, the Workforce Connect PTT Pro<sup>2</sup> subscription service for walkie talkie-style communications over cellular, CBRS and WiFi networks, and Workforce Connect Voice<sup>3</sup> to turn TC26 devices into fully-featured PBX handsets.

Right sized. Right featured. Right price.

### **The right service plan for the right price**

Constant peak performance and device uptime. That's the upside of protecting your investment with Zebra OneCare™ SV. Reduce device vulnerabilities, eliminate unexpected disruptions and unbudgeted repair expenses. You can also optimize your service with additional, flexible for-fee modules that provide expedited repair shipping, battery maintenance, device commissioning and cloud-based device visibility.

### **LifeGuard™ — a lifetime security guard for Android™**

LifeGuard for Android provides the security patches and updates you need to keep your TC26 devices secure every day they are in service. Included with your warranty and with all Zebra OneCare Support Service agreements.

### **Extensive business-class accessory family**

Easily and cost-effectively manage any size device pool in any environment with single and multi-slot chargers and cradles, vehicle holders, wearable and carrying solutions and more.

### **The Most Options in its Class**

#### **Integrated enterprise-class scanning**

With the built-in SE4710 scan engine, capturing a 1D or 2D barcode couldn't be faster or easier. And with Zebra's industry leading advanced algorithms, workers can capture virtually any barcode in practically any condition — even if it's poorly printed, damaged or dirty.

#### **A removable single or multi-shift battery**

The standard battery provides more than enough power to outlast a shift, or choose the extended battery that is ideal for long or double shifts.<sup>4</sup> And since the battery is removable, you never need to take the device out of service for charging.

#### **Create a hands-free wearable solution in the warehouse**

The optional wrist-mount accessory provides the comfort and productivity boost of hands-free operation. And your workers can just tap to pair with Zebra's RS5100 Bluetooth ring scanner and Zebra mobile printers.

#### **5 MP front camera for video calls**

Enable technicians in the field to collaborate with experts to increase first-time-to-fix rates, simplify on-the-job training and more.

### **Unparalleled Value with Complimentary Mobility DNA Tools**

#### **Add Powerful Enterprise Features with Mobility Extensions (Mx)**

Choose from over a hundred features to improve the security, data capture support, wireless connectivity and device manageability of the standard Android operating system. You're in charge — you decide what and when to activate. And features can be automatically configured via your Enterprise Mobility Management (EMM).

#### **Stage your devices for use in seconds with StageNow**

Easily stage a handful or thousands of Android devices with a quick scan of a barcode or tap on an NFC tag.

#### **Enterprise Home Screen**

Easily control the applications and device features your workers can access. And you can create different configurations for different teams, such as sales and marketing — no developer required.

#### **It's a snap to enter barcodes into your apps**

Send barcodes captured with the scanner right into your existing apps with Zebra's DataWedge — no programming or modification of your existing apps required. The result? A big time-savings — without any cost.

#### **Take full advantage of data capture features with EMDK**

The Zebra Enterprise Mobility Development ToolKit (EMDK) has everything you need to fully utilize data captured by any TC26 feature in your applications.

#### **Improve device uptime with Device Diagnostics**

Eliminate the high cost of needlessly sending devices that don't need repair to the Zebra Repair Center with Device Diagnostics. This simple to use tool allows administrators and end users alike to test the main systems on Zebra mobile computers with a simple press of a button to reveal whether the device can be fixed on site — or must be sent out for repair.

### **Unlock a Powerful Suite of Optional Big Business Tools**

#### **Optional Mobility DNA Enterprise license**

Unlock powerful voice and data tools to maximize the functionality and value of your TC26 devices. You get superior voice quality, including full-duplex voice. And a suite of innovative data solutions take device management, device security and data entry to a new level of simplicity.
