ZEBRA® GT800™ DESKTOP PRINTER

ZEBRA

Zebra® GT800™

Desktop Printer

FLEXIBLE, VERSATILE, EASY TO USE

Providing performance features at a competitive price, the GT800 thermal transfer/ direct thermal desktop printer offers a wide range of advanced functionality to meet a variety of low- to medium-volume printing applications.

The GT800 printer supports both 300 Meter and 74 Meter ribbon capacities — without the need to change settings for different ribbon lengths. Users easily select the appropriate length for the task at hand.

The intuitive design of the GT800 printer combines a choice of three connectivity interfaces and optional 10/100 Ethernet, co-resident EPL2™ and ZPL II® programming languages, Unicode™ and optional ZBI 2.0™ to ensure quick and efficient integration.

Print labels even faster with the printer's powerful 32-bit processor and its large memory for quicker processing and support for more graphics and longer labels. Designed to save you time and money on ongoing printer management and operator intervention, the printer features status reporting, odometer control and increased ribbon capacity.

With a durable, compact design, the GT800 is equipped with a standard moveable sensor to handle a greater range of custom and Genuine Zebra™ supplies and ensure consistent registration. Enhanced media handling options include the full-width cutter or peel dispenser options.

With print speeds up to 5 inches per second (ips), the GT800 offers users a choice of 203 or 300 dots per inch (dpi) resolution for applications requiring finer, high-quality output.

The larger ribbon capacity and ease of use make the compact GT800 desktop printer an ideal, affordable choice.
