Robust high-quality color

Rely on Lexmark X740 Series color laser MFPs for the high-quality color printing, scanning and copying essential to business. Speed and reliability mean minimal waiting and few interruptions. You consistently and quickly receive vibrant documents.

- Match corporate colors on marketing collateral and brand-sensitive text and graphics with Lexmark Named Color Replacement and PANTONE® calibration.
- Lexmark cartridges let you print up to 12,000 pages per cartridge in black and 7,000 pages per cartridge in color.¹
- Print and copy quickly at speeds up to 35 ppm and a time to first page as fast as 9 seconds in both black and color.
- The high-speed processor, 512MB RAM and Gigabit Ethernet networking mean fast data transfer and fast processing, even on complex color documents.
- Ultra-reliable paper feeding supports diverse media, including card stock, vinyl labels, banners and more.

Productivity made easy

The combination of easy-to-use features and reliable performance means business processes are intuitive and you are productive. Increase efficiency with workflow-enhancing solutions and shortcuts designed to reduce unnecessary printing and simplify processes.

- The easy-to-use 7-inch color touch screen provides audible feedback and tablet-like navigation to make device operation intuitive and simple.
- Expand input capacity with optional drawers that let you load multiple media types and boost total input capacity up to 4,300 sheets.
- Quickly print and copy documents using the instant warm-up fuser that also reduces energy consumption.
- Create customized messages to provide helpful information such as helpdesk telephone numbers.
- Easily manage supplies through programmable alerts that automatically send reorder notifications.

Security is standard

With Lexmark X740 Series color laser MFPs, printing is secure and sensitive information is protected. Advanced security controls provide the peace of mind that valuable business data is protected at every stage: from user authentication to security audits and disk wiping.²

- User authorization lets you customize personal access rights based on user login and group membership, including LDAP groups.
- Protect sensitive data sent to the device with IPSec, SNMPv3 and 802.1x network security protocols and hard disk encryption.²
- Remove sensitive data using automatic, scheduled or manual disk wiping that complies with government security standards.²
- Security-audit logging tracks and identifies security risks.
- Increase the security of scanned documents with PDF 1.6 support.

³ "Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.

⁴ "Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.
