MFP = Multifunction Product

<sup>1</sup> Average continuous black or continuous composite color (CMY) declared yield in one-sided (simplex) mode up to this number of pages in accordance with ISO/IEC 19798. Actual yield will vary considerably based upon many factors. See [www.lexmark.com/yields](http://www.lexmark.com/yields) for more information.

<sup>2</sup> Estimated yields are based on 3 average Letter/A4 size pages per print job at approximately 5% coverage. Actual yield may vary considerably based on other factors such as customer usage, device speed, paper size and feed orientation, toner coverage, tray source and average print job complexity.

## Multifunction Products

<sup>1</sup> Average continuous mono declared yield in one-sided (simplex) mode up to this number of pages in accordance with ISO/IEC 19752. Actual yield will vary considerably based upon many factors. See [www.lexmark.com/yields](http://www.lexmark.com/yields) for more information.

<sup>2</sup> Estimated yields are based on 3 average Letter/A4 size pages per print job at approximately 5% coverage. Actual yield may vary considerably based on other factors such as customer usage, device speed, paper size and feed orientation, toner coverage, tray source and average print job complexity.
