

Zebra CS60-HC Series Healthcare Companion Scanner

FREQUENTLY ASKED QUESTIONS

WHY WOULD I CHOOSE THE CS60-HC SERIES COMPANION SCANNER OVER A COMPETITIVE PRODUCT?

By seamlessly integrating into existing healthcare workflows, the CS60-HC boosts process efficiencies and ensures patients are left undisturbed until necessary. The use of a non-red illumination and LED aimer can be used throughout the entire hospital without triggering PTSD episodes. The night mode feature enables clinicians to toggle between an audible beep or vibration to ensure medicines, specimens or IV bags are scanned without disturbing patients and the CS60-HC doubles as a workstation lamp to illuminate a clinician's workspace without having to turn on the overhead lights – all in a disinfectant ready housing that helps provide maximum protection against the spread of infection.

Delivering both innovative software and hardware functionality as well as featuring an aesthetic design in a pocketable form factor that can be carried, the CS60-HC offers innovations that take the scanning experience to the next level, resulting in improved workflows. Key features include UDI Scan+ that makes it easy to capture and enter Unique Device Identification (UDI) information into host applications; first time, every time scanning performance with PRZM Intelligent Imaging; a programmable second button feature that allows clinicians to instantly and easily toggle between host applications; electric fencing that enables clinicians to quickly locate a mis-placed scanner resulting in minimized shift interruptions and DataCapture DNA makes it easier than ever for healthcare providers to integrate, deploy and manage their devices – all with best in class durability that helps keep scanners up and running at all times.

The CS60-HC delivers a compact, lightweight candy-bar style to enable mobility where it is essential. With ultra-portable, pocketable and wearable accessory options, the CS60-HC can be comfortably used all shift long to accommodate all clinician carry workflows – including when clinicians need to carry the scanner from room to room.

Furthermore, versatile charging options, including Qi inductive wireless power transfer, are available for easy and cost-effective management. For fast connections to get you up and running in seconds, the CS60-HC offers extensive wireless capabilities, including NFC and Bluetooth connectivity.

CAN THE CS60-HC SERIES COMPANION SCANNER BE CONVERTED FROM A CORDLESS DEVICE TO A CORDED DEVICE AND VICE VERSA?

Yes. The CS60-HC can either be utilized as a cordless or corded device or both! Simply swap out the battery pack for the USB converter or vice versa. It's that simple. End-users can now simplify their scanner deployments, having to manage just one product family for their workflow needs.

WHAT OTHER NEW FEATURES AND FUNCTIONALITY ARE AVAILABLE IN THE CS60-HC SERIES COMPANION SCANNER?

New CS60-HC features include but are not limited to:

- Inductive sensing touch buttons (smooth, sealed design)
- Qi Wireless Power Transfer ("Contactless" Charging)
- NFC Pairing
- BT 5.0 (Class 1&2, BLE)
- IP65
- Programmable second button
- Lithium polymer field replaceable battery
- Battery gauge
- Workstation Mountable Presentation Charge / Communication Cradle
- 4 Slot Device and 4 Slot Battery Chargers will work with EMC Share Base
- Intellistand Mount for corded conversion
- Retractable Neck Lanyard with Silicon Protection Sleeve

FREQUENTLY ASKED QUESTIONS

CAN I USE A THIRD-PARTY OFF-THE-SHELF Qi CHARGING PAD TO CHARGE THE CS60-HC SERIES COMPANION SCANNER?

Yes. The CS60-HC (wireless only) utilizes the Qi standard for wireless charging. Because of this, end-users can use a third-party off-the-shelf Qi charging pad to charge the scanner. Please note, Zebra can only guarantee charge times when using a Zebra manufactured charging cradle.

WHAT ACCESSORIES DOES THE CS60-HC SERIES COMPANION SCANNER OFFER?

The CS60-HC offers a variety of accessories – enabling end-users to design a solution that meets their workflows. Pick from cradle and charging options, battery and USB converter options, intellistand options for presentation/hands-free workflows, retractable lanyard with silicon protector and third-party presentation charge / communication cradle workstation mounting options – just to name a few.

CAN I MOUNT THE CS60-HC SERIES COMPANION SCANNER CRADLE TO A WORKSTATION ON WHEELS OR AN IN-ROOM WORKSTATION?

Yes. Mounting options are available from the following:

- Creative Mounting Solutions: www.creativemounting.com
- ProClip: www.proclipusa.com
- Vital Integrations: www.vinteg.com

MY WORKSTATION ON WHEELS CPU DOES NOT HAVE A BLUETOOTH RADIO. HOW CAN THE CS60-HC SERIES COMPANION SCANNER PAIR IF I AM NOT USING A CRADLE?

The CS60-HC supports off-the-shelf Bluetooth dongles. End-users can create pairing barcodes via 123Scan by entering the Bluetooth dongle MAC address. Additionally, the CS60-HC supports NFC tap to pair. Similar pairing can be accomplished with an NFC tag. Recommended off-the-shelf Bluetooth dongles include but are not limited to:

- Techkey Mini Size USB Bluetooth Dongle Bluetooth 5.0+EDR – Model Number: Techkey-001
- Techkey USB Bluetooth 4.0 Adapter Dongle – Model Number: PBT06H
- StarTech USB Bluetooth 4.0 Adapter Dongle – Model Number: USBBT2EDR4
- IOGEAR Bluetooth 4.0 USB Micro Adapter – Model Number: GBU521

DOES THE CS60-HC SERIES COMPANION SCANNER OFFER DISINFECTANT-READY PLASTICS? ARE THERE EXPOSED SURFACES AND CREVICES WHERE GERMS CAN HIDE?

Special disinfectant-ready plastics and IP65 sealing allow for safe wipe-downs with the widest selection of aggressive disinfectants. And with a monocoque design, inductive sensing touch buttons and contactless charging, the scanner's crevice-free surface helps eliminate places where germs can hide. Please refer to the full list of cleansers in the Product Reference Guide.

DOES THE CS60-HC SERIES COMPANION SCANNER REPLACE ANY OTHER SCANNERS IN THE ZEBRA PORTFOLIO?

Yes. The CS60-HC will replace the CS4070-HC. A future CS4070-HC End of Sale Product Marketing Bulletin will be made available explaining the transition.

Zebra CS60-HC Series Healthcare Companion Scanner

FREQUENTLY ASKED QUESTIONS

WHAT IS THE WARRANTY ON THE CS60-HC SERIES COMPANION SCANNER?

The CS60-HC comes with a three (3) year warranty.

WHAT TYPES OF SOFTWARE APPLICATIONS ARE AVAILABLE FOR THE CS60 SERIES COMPANION SCANNER? WHERE CAN I GET DETAILED INFORMATION?

Zebra offers a complete set of software tools for device configuration, remote management and application development that may be used with the CS60.

123Scan

- 123Scan is a software tool to simplify scanner set-up. Intuitive enough for first time users, 123Scan has a wizard that creates a single barcode for programming scanners. It can also be used to update firmware on a single device or stage a large number of devices and can display and save both bar code data and images.

Scanner Control Application

- The Scanner Control App allows a user to control their Bluetooth scanner from a phone / tablet.

The app supports single-step Scan-To-Connect technology.

It allows you to control your scanner to:

- Program beeper and LEDs
- Enable / disable symbologies
- Remotely trigger a scan
