Expand your capabilities with the DS3600-KD

If you're in the business of moving goods today, you know that there's pressure to deliver service faster than ever and at higher volumes. At the same time, labor challenges and supply chain uncertainties make it hard to adapt at the speed of the market. Put more capabilities in the hands of your workers with the new DS3600-KD Ultra-Rugged Scanner with Keypad and Color Display. Easily key in data, such as adding quantity and location to any scanned barcode. Designed to empower workers to complete repetitive, labor intensive tasks in a fraction of the time, the DS3600-KD was built to outperform the rest and help you do the same.

82% of associates that say their company needs better inventory management tools to ensure accuracy.* See how Zebra's DS3600-KD can turn simple data capture into powerful process improvement from picking to inventory and beyond.

Everything the 3600 Series has, plus more

Leverage an intelligent scanner that can input, display, and transmit the data you need:

- Pre-built applications designed to solve common workflow challenges right out-the-box
- Color display and back-lit keypad allows workers to easily key in quantity or location data
- Enhanced ultra-rugged specs including a 10 ft. drop to concrete, 7,500 tumbles and IP65/IP68 sealing
- Do more with DataCapture DNA, including Virtual Tether and Label Parse+
