

Create a Powerful, Flexible Production Line Solution

Zebra's ET45 Enterprise Tablets and Workstation Connect

Product quality, operating costs and asset utilization are key factors in Tesla's drive to remain at the forefront of the EV industry. Zebra's ET45 Enterprise Tablets provide the mobility needed to keep pace throughout operations. Plus, they can be paired with Workstation Connect to put a powerful Android workstation wherever it is needed. It's a proven formula that can elevate key tasks such as:

PICKING PARTS	Advanced scanning technology enables fast, reliable verification of parts on the assembly line.
PRODUCTION TRACKING	Use Workstation Connect to configure the ET45 tablet as a workstation to track key metrics at the end of the line.
WORKFORCE COMMUNICATION	Support for 5G and Wi-Fi 6 ensure fast, reliable communication throughout manufacturing operations.
INVENTORY MANAGEMENT	Easily track the movement of parts and supplies that are critical to manufacturing productivity.

ET45 Enterprise Tablets

RIGHT-PRICED RUGGED TABLETS THAT HAVE IT ALL—RIGHT OUT OF THE BOX
Extending mobile devices across Tesla's entire manufacturing workforce is a big commitment—and a substantial investment. Zebra's ET45 Enterprise Tablets deliver the performance and durability you need at a budget-friendly price. You get everything you need right out of the box, including:

- Thin and light 8-inch and 10-inch models
- Integrated enterprise-class scanning
- The fastest 5G and Wi-Fi 6 wireless connections
- Powerful communication options
- Multi-year lifecycle

Workstation Connect

TURN YOUR ZEBRA TABLETS INTO POWERFUL ANDROID WORKSTATIONS

It's essential to ensure your workers always have the right tools. For tasks that require heavy data entry or simultaneous use of multiple applications, Workstation Connect software makes it easy to dock Zebra tablets in a Connect Cradle or Connect Hub to create powerful workstations wherever you need them. The result? Lower capital costs and a more flexible manufacturing operation.
