

Want a **rugged tablet** that is faster, tougher, versatile and better for the Earth?

Just upgrade to the ET60/ET65 Rugged Enterprise Tablets.

If you've been using ET51/ET56 Enterprise Tablets for rugged applications, it's time to step up to the next generation in rugged mobility. Zebra's ET60/ET65 Rugged Enterprise Tablets offer more of everything—more features, more power, more security, more ruggedness and more versatility. Everything you need to boost productivity and service in the toughest applications and environments.

More rugged

Higher drop spec—no rugged frame required; higher sealing, wider temperature range and a model for freezer condensing environments.

Enhanced wireless technologies

Faster, more reliable, future-proof connections with support for 5G, Private 5G and Wi-Fi™ 6E.

Ultra-rugged forklift dock

New rugged dock built to handle heavy vibration and constant pounding for increased reliability in forklift operations.

Kind to the environment

Designed to EPEAT Silver standards, these tablets reduce emissions related to materials, shipping and charging.

Newer, faster platform

A new significantly faster Qualcomm® processor enables the apps of today and tomorrow.

ZEBRA

What do you get when you upgrade from the ET51/ET56 to the ET60/ET65?

FEATURE	ET51/ET56 ANDROID	ET60/ET65	ET60/ET65 BENEFIT
Newer, faster platform			
Processor	Qualcomm® Snapdragon 660 octa-core 2.2 GHz	Qualcomm® 6490 octa-core 2.7 GHz	Next generation 6490 processor enables the applications of today and tomorrow
Android™ support	Upgradeable to Android 14	Upgradeable to Android 16	New tablet optimization features in Android boost productivity, such as the ability to run applications in split-screen mode and a new taskbar
Viewing/display brightness	10.1 in.: 540 nits 8.4 in.: 720 nits	1,000 nits	Super bright 1,000 nit display is easy to read in any lighting, including outside in bright sunlight
Latest wireless technologies			
Wi-Fi	Wi-Fi 5	Wi-Fi 6E	Wi-Fi 6E offers 4x the bandwidth, 4x higher capacity and 75 percent lower latency than Wi-Fi 5
Cellular	4G	5G	5G gives workers access to faster cellular speeds—plus lower latency, better signal quality and more security
Private 5G/CBRS ¹	No	Yes	Cost-effective, better performing wireless connectivity in ports, yards and expansive indoor facilities
More rugged			
Sealing	IP65	IP66	The ET60/ET65 can be hosed off for easy cleaning
Drop specification	3.3 ft./1.0 m drops to concrete	5 ft./1.5 m drops to concrete per MIL-STD-810H	ET60/ET65's drop spec is 5 ft./1.5 m to concrete, right out of the box—no rugged frame required
Operating temperature	-4° to 122° F/-20° to 50° C	-22° F to 131° F/-30° C to 55° C (with extended battery)	Uninterrupted workflows in freezers, as well as outdoor applications all year round even in colder regions
Features for freezer condensing environments	No	Yes (requires rugged vehicle mount; ET60 only)	The ET60's touchpanel and warehouse keyboard are heated when locked into the vehicle dock—a feature no other tablet today can offer
More versatility			
Integrated barcode scanner	SE4750 available via expansion back	Optional integrated SE55 1D/2D Advanced Range Scan Engine with IntelliFocus™ technology	The SE55 can quickly capture barcodes in hand or on the top shelf of a high rack
Cameras	13 MP rear/2 MP front	13 MP rear/2 MP front	Higher resolution front camera improves video calls; privacy shutter prevents unauthorized access to the front camera
Laptop replacement	Detachable keyboard	Detachable friction hinge keyboard	Friction hinge keyboard provides a true “laptop-like” experience—the display can be set at any angle to the user's preference
Vehicle mount computer replacement	Third-party vehicle dock	New Zebra patent-pending rugged vehicle dock	New patent-pending rugged vehicle dock provides a rock solid secure in-vehicle mount that can handle extreme shock, vibration and constant pounding, fit in practically any material handling vehicle, accommodate the warehouse keyboard and even heat the ET60's touchpanel and keyboard for freezer use
Hot swappable battery	Requires optional secondary battery via expansion back	True hot swap with Super Capacitor	True hot swap support allows workers to maintain uninterrupted productivity; improved ergonomics

1. CBRS is available in the US only
