

ET6xW Series Product Environmental Attributes

Putting Sustainability at the Heart of Our Products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

Eco-friendly attributes⁵

- No mercury
- No PFO/PFOAs
- No Latex
- Global requirements with Global ROHS requirements

Power consumption

- 23% below allowable Energy Star consumption levels¹
- Fast charging in just 2 hours, 34 minutes⁴
- Zebra Technologies external power supplies meet US Department of Energy (DoE) Level VI and all international efficiency requirements

Use fewer device types

The ET6xW tablets provide true device convergence—with multiple modalities and expansion options including docks, keyboards, scanner, etc., making it suitable for many applications and use cases, substantially reducing plastics and electronics volume, as well as cost and device maintenance

A-to-Z sustainable packaging

Our corrugated packaging is 100% curbside recyclable:

- 95% biodegradable packaging by weight
- All cardboard is made with FSC mix certified paper
- The cardboard box contains a minimum of 50% recycled content
- All paper inserts are made with FSC mix certified paper
- Bulk packaging is available upon request

EPEAT certification for proven sustainability

EPEAT Silver Certified

Lower consumption of devices, accessories and batteries through maximized life cycles

Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gasses

- Maximized lifecycle with Zebra's rugged design
- 8 years of repair and technical support: no need to retire working devices due to lack of available support³
- 10 years of security: keep your devices secure every day of their long lifecycle with Windows® 11 IoT Enterprise LTSC 2024

Advanced NFC reading

- Avoid the spread of germs: the most complete NFC reading enables NFC contactless transactions like ticketing and payment
- Reduced waste from eliminating physical tickets

Green battery technology

- Removable, easy to recycle battery
- Reduce spare battery pool: 8 hours battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge
- Battery-free option for always-powered applications eliminates environmental impacts from the battery

Zebra's Circular Economy provides life-cycle management of products that reduce your overall carbon impact

Takeback Recycling Program

Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply

Device Buy-Back Program

Your end of life devices may be eligible for a device buy-back, enabling a "green" upgrade to the next generation device

Certified Refurbished Device Program

Purchase or rent Certified Refurbished devices, which perform like new and may include End of Life products to meet season surges and bridge gaps to a tech refresh

Battery Recycling Services

We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you
