Word descriptions - Zebra Guardian Cabinets

Long - 250 words

Optimize how your enterprise mobile devices are stored, accessed, tracked, and managed to harness the most efficient use of devices and workers with Zebra Guardian Cabinets and Access Management System.

Zebra Guardian Cabinets, Racks, Cradle Locks, Customized Carts and Trolleys help ensure assets and workflows function in tandem at high performance and optimal security to accelerate business in warehouse, transportation & logistics, retail, and healthcare operations.

To maximize the use and productivity of your devices—such as mobile computers, mobile printers, tablets, and scanners—Zebra Guardian Cabinets offer an adaptable portfolio of end-to-end device storage solutions, software automation, security applications, as well as ongoing support.

Zebra also offers a wide range of Professional Services from initial concept through to smooth deployment, successful adoption, and cost-effective operations throughout the life of your Zebra Guardian Cabinets and Device Guardian Access Management.

Streamline workflows and staff efficiencies with Device Guardian Access Management by providing rapid access to devices with Zebra's purpose-built storage designs. Cabinets with software-driven smart technology allow you to automate workflows and minimize worker hours for improved productivity. Tracking capabilities link assets with users to track devices and cultivate a sense of worker ownership and accountability, helping to prevent device repairs and replacements from abuse and loss. And by consolidating assets and connecting them for battery charging, software updates and health checks, the long-term performance of each device can be maximized with every device ready for optimum use during every shift.

Leverage Zebra Guardian Cabinets and Device Guardian Access Management to design your asset storage solution and help you increase your competitive advantage by harnessing the most efficient use of your devices and workers.
