## ABOUT THE CK62

The Honeywell CK62 is a Wi-Fi 6E-enabled warehouse solution. Its rugged design is suitable for warehouse environments. Its improved ergonomic design has both alpha-numeric and function-numeric keypads for versatile data input. It features a Qualcomm 4490 Octa-core processor for best performance and product longevity. It offers 8GB/128GB memory to handle different workloads. Additionally, it features a 13-megapixel camera capable of clear and high-quality document scanning and image capturing.

The CK62 leverages the Mobility Edge platform which offers durability, stability, security, and long-term life cycle availability. It supports Android™ versions 14, 16, and 18, thereby providing a secure and open operating system to integrate with a wide range of applications. When coupled with Honeywell's Operational Intelligence asset management software, it provides users with critical analytics that allow ease of device management and optimal productivity, all while reducing total cost of ownership (TCO).

The CK62 was designed with portability and user comfort in mind. Weighing just 440 grams and measuring 27mm at its thinnest point, it is easy to operate single-handedly, fits into an average pocket, and can be comfortably carried throughout the day. The keyboard layout has been carefully designed to offer excellent tactile comfort and usability. With 47 keys for alpha-numeric input and 38 function keys for function-numeric input, it meets diverse application needs in warehouses and distribution centers. Its ergonomic design is designed to work efficiently and minimize user fatigue, all while ensuring smooth operations even under fast-paced and demanding environments.

Designed to endure the challenges of warehouse operations, the CK62 boasts an IP65 rating for dust and water resistance. It can withstand drops from 1.8 meters and 3000 tumbles, ensuring durability under harsh usage conditions.
