Honeywell Announces CK62 Configuration with Large Numeric Keypad

Honeywell is pleased to announce the launch of the CK62 configuration with a large numeric keypad.

The CK62 is a lightweight rugged mobile computer designed for warehouse and distribution center environments. The CK62 provides reliable data access and data entry with its carefully designed keypads. Equipped with 5G¹ cellular and Wi-Fi® 6E capabilities, the CK62 supports high-speed connectivity, which promotes productivity across different workflows and applications.

CK62 Mobile Computer

- Mobility Edge™ platform, offers durability, stability, security, and long-term life cycle availability
- Qualcomm® 4490 octa-core processor update to 2.4GHz
- High-performance 5G¹ cellular, Wi-Fi 6E, and Bluetooth® 5.3 communications
- 4-inch display protected by CORNING® GORILLA® GLASS 5
- Weighing 440 grams and measuring 27mm at its thinnest point, easy to operate single-handedly
- 7,000 mAh battery, removable, hot-swappable, Quick Charge 3.0 supported
- FlexRange™ XLR scan engine/ Honeywell S0703
- Multiple 1.8 m (6 ft) drop to concrete per MIL-STD-810H, 3000 tumbles, IP65
- Comprehensive range of accessories that enhance functionality and versatility for various operational scenarios.
- Box includes: device, hand strap, USB type C cable, standard battery pack

NEW PART NUMBERS

ABOUT THE CK62

The Honeywell CK62 is a 5G¹ and Wi-Fi 6E-enabled warehouse solution. Its rugged design is suitable for warehouse environments. Its improved ergonomics design has three keypad choices: alpha-numeric, function-numeric, and large numeric for versatile data input. It is featured with Qualcomm 4490 octa-core processor for best performance and product longevity. It offers memory options of 4GB/64GB or 8GB/128GB² to handle different workloads. Additionally, it features a 13-megapixel camera capable of clear and high-quality document scanning and image capturing.

The CK62 leverages the Mobility Edge platform which offers durability, stability, security, and long-term life cycle availability. It supports Android™ versions 14, 16, and 18³, thereby providing a secure and open operating system to integrate with a wide range of applications. When coupled with Honeywell's Operational Intelligence asset management software, it provides users with critical analytics that allow ease of device management, and optimal productivity, all while reducing total cost of ownership (TCO).

The CK62 was designed with portability and user comfort in mind. Weighing just 440 grams and measuring 27mm at its thinnest point, it is easy to operate single-handedly, fits into an average pocket, and can be comfortably carried throughout the day. The keyboard layout has been carefully designed to offer excellent tactile comfort and usability. With 47 keys for alpha-numeric input, 38 function keys for function-numeric input, and 29 keys for large-numeric input, it meets diverse application needs in warehouses and distribution centers. Its ergonomic design is designed to work efficiently and minimize user fatigue, all while ensuring smooth operations even under fast-paced & demanding environments.

Designed to endure the challenges of warehouse operations, the CK62 boasts an IP65 rating for dust and water resistance. It can withstand drops from 1.8 meters and 3000 tumbles, ensuring durability under harsh usage conditions.

For additional information, please visit the CK62 product page [HERE](#).

1. WWAN / cellular is not supported in North America and some countries. Only Wi-Fi SKUs are available.
2. Europe and North America only support 8GB.
3. 4GB: Android 16 planned but needs confirmation from Qualcomm & Google.
