Honeywell Announces Design Update for Select CT70 Accessories

Honeywell is pleased to announce a design update for select accessories within the CT70 product line. The update is intended to ensure compatibility between existing CT70 devices with a 13MP camera, and the upcoming models equipped with a 50MP camera, scheduled for release in the second half of 2026.

DESCRIPTION OF THE UPDATE

This update simplifies accessory inventory management for our valued partners and customers and reduces complexity for end users operating mixed deployments of CT70 devices with 13MP cameras and 50MP camera configurations.

As part of this update, three new accessory SKUs will be introduced to replace the existing accessories, as listed below.

ACCESSORY NAMES	ACCESSORY IMAGES	EXISTING ACCESSORIES COMPATIBLE WITH CT70 WITH 13MP CAMERA ONLY	NEW ACCESSORIES COMPATIBLE WITH CT70 WITH 13MP CAMERA AND CT70 WITH 50MP CAMERA
CT70 Booted Scan Handle		CT70-SH-UVB	CT70-SH-UVB-C
CT70 Non-Booted Scan Handle		CT70-SH-UVN	CT70-SH-UVN-C
CT70 Protective Boot		CT70-PB-GRY	CT70-PB-GRY-C

RECOMMENDED ACTIONS

Customers using CT70 devices with 13MP camera configurations may continue to use existing accessories. However, for CT70 devices equipped with the new 50MP camera configuration, the updated accessories are required to ensure proper compatibility and functionality.

ABOUT THE CT70

The CT70 is a cutting-edge, future-proof mobile computer designed to revolutionize operations in the retail and logistics sectors. It integrates advanced technologies to streamline processes, enhance delivery speeds, and elevate customer experiences. Combined with powerful end-to-end software solutions — including Honeywell Operational Intelligence, Honeywell Smart Talk communications, Honeywell Smart Pay, and more — the CT70 empowers users in transportation & logistics, last-mile delivery, and field work.

Built on the Mobility Edge™ platform — a durable, stable, secure foundation for effective, long-lasting solutions, the CT70 delivers the lifecycle, security, and durability required by serious businesses. The CT70 harnesses the latest processor and memory technology for high performance, with planned support through Android™ 19. Combined with the powerful, cloud-based, Honeywell Operational Intelligence asset optimization solution, IT leaders gain insights to boost productivity and reduce operating costs.

The CT70 is built to withstand the toughest environments without compromising on performance. Workers in the field can rely on the rugged yet easy-to-use design, which can endure multiple 6-ft drops to concrete and over 3,000 real-world tumbles. Whether it is exposed to heavy rain, operating in a very dusty working environment, or enduring extreme cold weather, the CT70 remains resilient and dependable, ensuring smooth and uninterrupted operations.

The CT70 comes with the latest Wi-Fi® 7 technology to stay connected. The CT70 with Wi-Fi 7 offers blazing-fast speed and reliable connectivity even in a device-crowded environment.
