

Transition from MC9300 to the next big thing in ultra-rugged mobile computing!

MC9400/MC9450

The MC9300 product family will be discontinued for booking from **31 March 2025**, while supplies last. Introducing the evolution of the world's #1 selling and most trusted Android ultra-rugged mobile computer – replace your MC9300 products with the newest and latest MC9400/MC9450 series!

Fastest cellular and Wi-Fi with 5G¹ (private and public) and Wi-Fi 6E

2.5 times more processing power

Enhanced 12 ft./3.65m drop specs in challenging environments

BLE battery for device tracking²

20% longer read range with new SE58 Extended Range scan engine and high visibility green aimer

Supports up to Android 17

Identity Guardian biometric facial recognition for instant and secure access

Backwards compatibility with MC9300 Series accessories

1. 5G is available on the MC9450; data connections only. | 2. Requires the purchase of the optional BLE battery and Device Tracker licenses.

GIFT WITH PURCHASE

From 1 January 2025 to 31 March 2025, receive a **FREE Four-Slot Charger Cradle Set** with each purchase of 20 units of the MC9400/MC9450!

All partners in Australia/New Zealand and who are active members of Zebra Partner Connect Program are eligible for this promotion and will redeem the gift* on behalf of their customers.

*Gift redemption starts from 1 January 2025 and ends on 14 April 2025 or while stocks last, whichever comes first.
