

PS30 and PS30 Plus Product Environmental Attributes

Putting Sustainability at the Heart of Our Products

When it comes to creating sustainable products, Zebra is committed. From company-wide global initiatives to the end-to-end product life cycle from manufacturing to retirement, our green initiatives protect the planet—and the people who make and use our products.

Eco-friendly attributes⁶

- No mercury
- No PFO/PFOAs
- No latex
- Compliant with global RoHS requirements

Power consumption

- Consumes 38.1% less energy than the US Department of Energy (DoE) required threshold¹
- 12.9 % more power efficient⁸
- Fast charging in just 2 hours 47 minutes⁵
- Green Mode settings allow for intelligent limiting of power consumption across a fleet of devices
- Zebra Technologies external power supplies meet DoE Level VI and all international efficiency requirements

Improved Surface Cleanliness

- Chemical Resistant plastics allow you to clean the device effectively to reduce the spread of germs
- Single external screw makes cleaning even easier

Advanced NFC reading

- Avoid the spread of germs: complete Android NFC implementation enables NFC contactless payment

Designed to EPEAT Sustainability Criteria⁷

A-to-Z sustainable packaging

Our corrugated packaging is 100% curbside recyclable:

- 100% biodegradable packaging, by weight, including paper bag surrounding the device
- All paper inserts are made with FSC Mix certified paper
- The cardboard box contains a minimum of 50% recycled content

Sustainable Materials

- The device contains over 4.4% post-consumer recycled plastic

Lower consumption of devices, accessories and batteries through maximized life cycles

Most carbon emissions occur in the raw material and manufacturing stages—the fewer devices you use, the more you reduce greenhouse gasses

- Maximized lifecycle with Zebra's rugged design
- 10 years of security: keep your devices secure every day of their long life cycle with LifeGuard™ for Android™³
- 10 years of repair and technical support: no need to retire working devices due to lack of available support³
- Cradles are compatible with previous generation Zebra personal shopper devices
- No lost devices to replace: Device Tracker locates devices when lost or misplaced. Includes space for an internal security tag to reduce device shrinkage
- Reduced spare device pool: no-cost Mobility DNA™ Professional troubleshooting tools keep devices on-site and in the hands of your workers—instead of the service center

Green battery technology

- Removable, easy to recycle battery
- Reduced spare battery pool: 21.1 hours battery run time², plus visibility into battery health to ensure that all batteries can hold a full charge
- 1.6 hours of Self Shopping battery life after 15 minutes charging in Fast Charge Mode⁴
- Zebra Charge Manager allows more efficient charging and longer battery lifetime

Zebra's Circular Economy provides life-cycle management of products that reduce your overall carbon impact

Takeback Recycling Program

Zebra offers free recycling for selected end of life devices and will provide a certificate of destruction upon request. Conditions apply

Device Buy-Back Program

Your end of life devices may be eligible for a device buy-back, enabling a "green" upgrade to the next generation device

Certified Refurbished Device Program

Purchase or rent Certified Refurbished devices, which perform like new and may include end of life products to meet season surges and bridge the gap to a tech refresh

Battery Recycling Services

We offer a variety of options, depending on location, from convenient drop-off locations to complete a-to-z battery management, where Zebra handles it all for you. Conditions apply
