

A Future-proof Device That Delivers Faster, Easier Asset Tracking for Healthcare Workers

1300+ tag reads per second in the palm of your hand.

That's right, the RFD40 UHF RFID Standard Sled helps you locate critical assets and patients faster than ever with ease. Quickly inventory supplies thanks to RFID technology with a 20+ foot read range and tri-function trigger.

Tech that's built to last.

With durable drop, tumble and sealing specs and upgradability to adapt as new technologies come out, the RFD40 will maximize your ROI by outlasting competitive devices.

Easy is the name of the game.

Easy to use. Easy to connect. Easy to configure and update. Easy to hold thanks to an ergonomic design. Easy to charge. Easy to get used to this kind of performance.

Tool-free is the way to be.

The RFD40 Sled has easy, tool-free changeable adaptors so it keeps working even as you upgrade to new mobile computers. Similarly, the cradle cups can be swapped quickly and easily without the need to rip and replace the entire cradle.

Ideal for:

- Specimen Tracking
- Patient Tracking
- Hospital Asset Management & Tracking
- Staff Management & Tracking
- Patient Identification & Admission
- Medication Administration
- Pharmacy Management & Tracking

The RFID Powerhouse that Meets your Needs

Designed with Users in Mind
