

Get RFID right with RFID supplies

Maximize your sales with this untapped revenue stream

You already know Zebra—unlike other players—gives you the industry's broadest, field-proven RFID portfolio. But what you may not know is that Zebra's RFID labels, tags, and inlays are not only industry leading, but offer an easy revenue stream you can tap into as soon as you begin designing your customer's RFID solution.

Three reasons to spec in RFID supplies from the start

- 1** Include RFID Supplies in the initial specifications, instead of trying to meet specs, uncover issues or persuade customers to switch
- 2** Customer's typically stick to their RFID Supplies solution because certifying new solutions is difficult
- 3** RFID Supplies play a critical role in the RFID ecosystem, and Zebra RFID Supplies leverage Zebra's decades of RFID expertise, design thinking and software development

Zebra RFID supplies value adds

Expertise & Customized Guidance

Zebra's R&D Team can recommend optimal RFID inlays based on the application with our Voyantic test system

Convenience & Quick Delivery

50+ ZipShip items ready to ship at a moment's notice, with a wide selection available

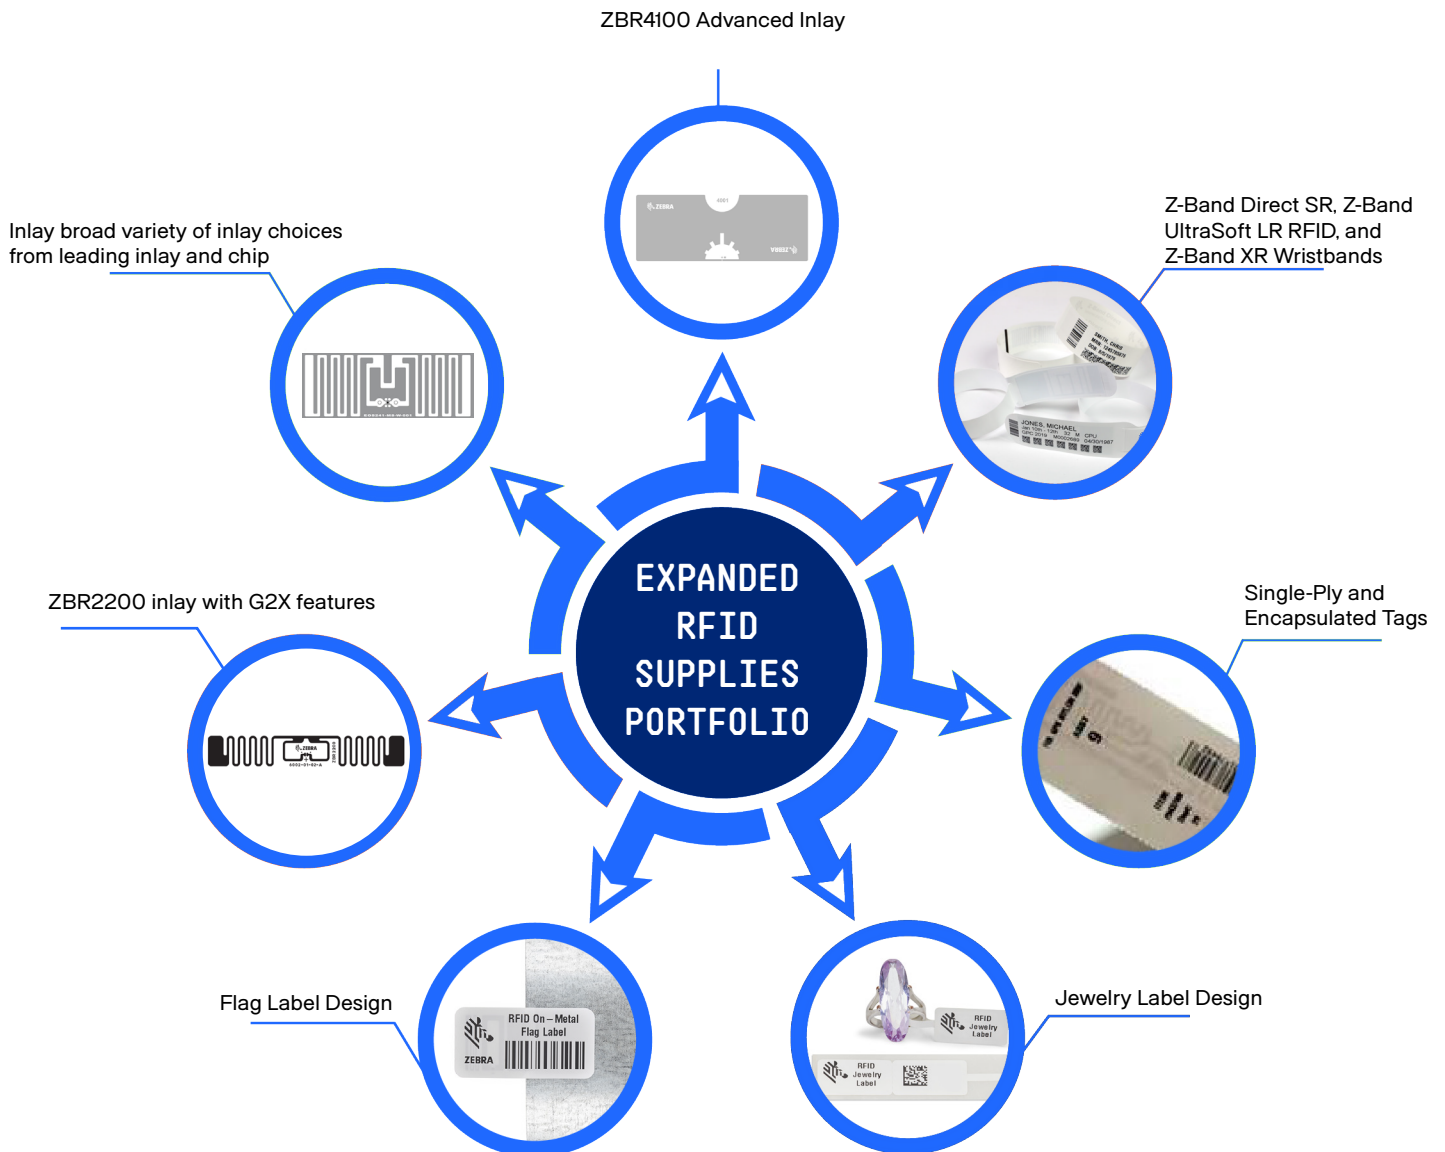

Printhead Protection Program

Customers receive free replacement printheads, provided they purchase Zebra Certified Supplies

Zebra's ever-expanding portfolio and manufacturing capabilities

Zebra's RFID Supplies portfolio continues to grow. Our extensive manufacturing capabilities enable us to create custom solutions leveraging almost any combination of label material, inlay and IC tag.
