

The RS5100 Enterprise Hand Mount

The wearable accessory that delivers
all day scanning comfort

When it comes to a hand mount for wearable scanners, today's workers want maximum all-day comfort — while enterprises need a wearable solution that is flexible and adaptable. Now, there's an accessory that does it all — the RS5100 Enterprise Hand Mount — a new way to wear the RS5100 featherweight yet rugged wearable scanner.

Give every hand a custom fit, bringing superior all-day comfort to the most scan-intensive jobs. A choice of six sizes ensures a secure fit, ideal for workers who spend their days sorting packages or reaching into the tightest of spaces to pick items. And the scanner position can be adjusted to achieve the perfect balance and perfect scan angle, increasing comfort and productivity.

And since the RS5100 Wearable Scanner is compatible with all five interchangeable wearing accessories — including single finger with a single or double trigger, a lanyard and the back of hand mount — you can easily switch wearing styles to accommodate different user preferences and use cases.

Give your workers a clear advantage with the RS5100 Enterprise Hand Mount — wearable scanning done right.

What makes the RS5100 Enterprise Hand Mount so extraordinary?

ADVANTAGE: A perfect fit

- Perfectly contoured for superior comfort
- Flexible — wear it with or without gloves, making it ideal for many environments
- A custom fit for every worker — available in small, medium and large, for right and left hands

ADVANTAGE: A perfect balance

- User adjustable scanner position — left to right, closer to the thumb or anywhere on top of the hand
- Ability to customize position for perfect balance on every hand, minimizing fatigue

ADVANTAGE: Always powered up, ready to work

- Removable battery — swap in a fully-charged battery at any time
- No need to take the RS5100 out of service to charge during a shift
- No need to send the scanner to the depot to replace an aging internal battery
- Two battery options to match your shift requirements — standard 12+ hour or extended 18+ hour
- Extended battery enables full shift operation down to -20°C (-4°F)

ADVANTAGE: Maximum connectivity flexibility — and functionality

- Connect to any host device in a split second — just tap or scan to pair
- Bluetooth Class 1 long distance connection — connect to a host device up to 300 feet away, such as a vehicle mount computer or laptop
- Bluetooth Class 2 short range power saving mode — connect to a host device up to 30 feet away, such as a mobile computer worn on the wrist or hip
- Get a dependable, superior connection to the host mobile device with Bluetooth Channel Masking — only from Zebra

ADVANTAGE: Adjustable scanning ergonomics

- Adjust the aiming angle of the scanner — straight, left or right for improved scanning accuracy
- Maximize scanning comfort — and productivity

ADVANTAGE: Designed for your most rugged environment

- Long life trigger rated for 2 million scans
- Stainless steel front bezel protects scanner against bumps on warehouse racks, shelves and conveyors
- Built to handle 6 ft./1.82 m drops over the entire operating temperature range to ensure durability in extreme environments
- Dustproof and waterproof with IP65 sealing
- Ready for the winter's static electricity buildup with 2x the ESD rating of competitive products

ADVANTAGE: Maximum cost efficiency — the lowest TCO in its class

- Zero downtime — removable batteries deliver perpetual power every minute of every shift
- Lower accessory costs with high capacity 8- or 40-slot battery chargers — just three 40-slot high density chargers can handle a deployment of 120 devices
- Minimize recurring costs — discard fabric accessory without discarding any expensive electronics
- Minimize environmental impact and electronic waste disposal costs — dispose of the fabric accessory only, reuse all electronics

ADVANTAGE: Improved hygiene — prevent cross-contamination between workers

- Provide each worker with a personal low-cost fabric hand wrap accessory — reuse the same mount and trigger across different hand wraps.
- The fabric hand wrap can be cleaned in a washing machine on gentle cycle, allowing sharing of the accessory between workers
