CHAPTER

1 GETTING STARTED

Modular design and a detachable stand allow the Genesis XP to integrate into almost any workflow through the use of the following smart placement accessories:

- Wall mount STND-07R07
- POS (point-of-sale) mount STND-02F07
- Vertical stand STND-18R06

For more information about the Genesis 7680g scanner, refer to the product page available at automation.honeywell.com.

Unpack Your Accessories

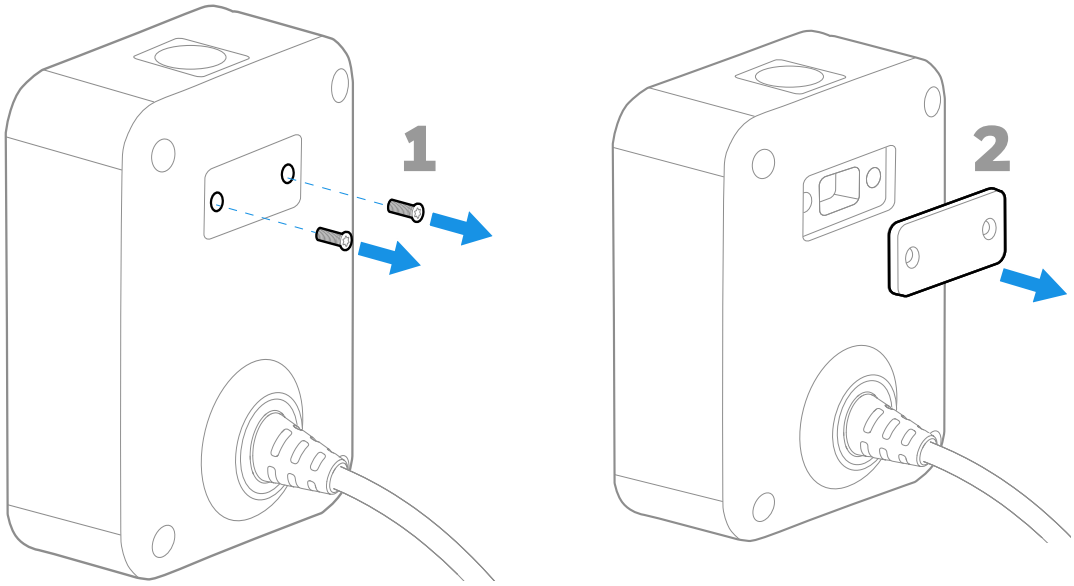

After you open the shipping carton containing the product(s), take the following steps:

- Check for damage during shipment. Report damage immediately to the carrier who delivered the carton.
- Make sure the items in the carton match your order.
- Save the shipping container for later storage or shipping.

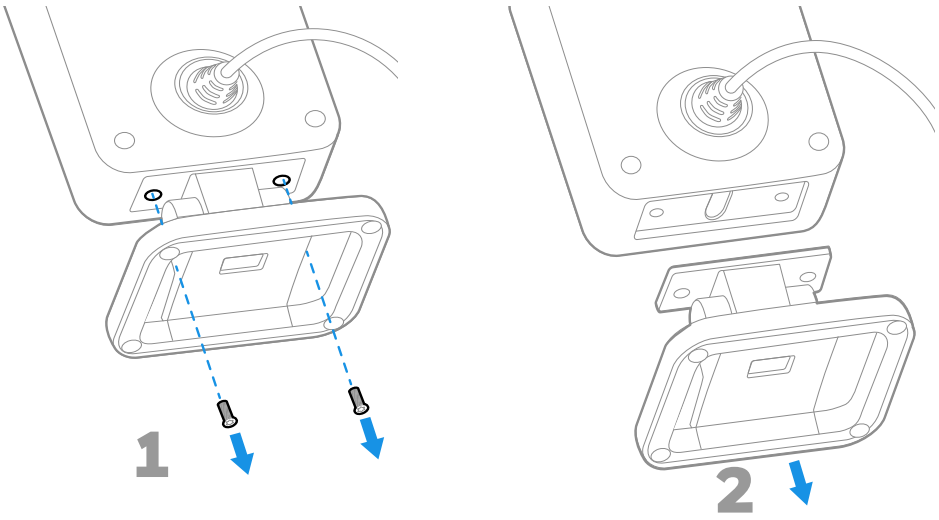

Prepare the Unit

Before installing a modular accessory, remove the expansion port cover from the scanner as well as the presentation base, if installed.

2 WALL AND POS MOUNTS

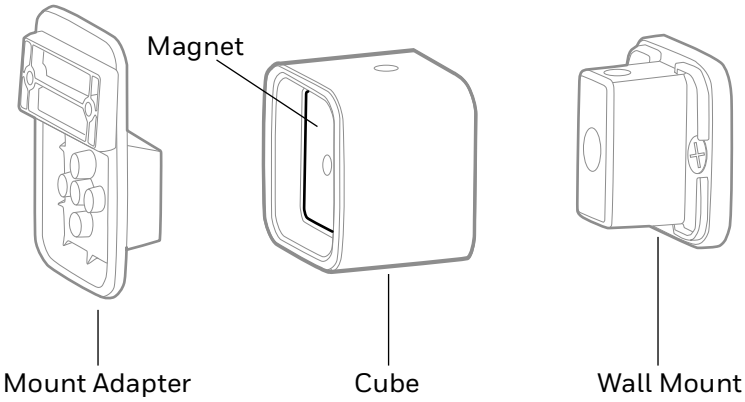

Both the Genesis XP wall mount (STND-07R07) and the POS mount (STND-02F07) provide the flexibility of either a removable scanner or a fixed scanner.

The POS mount also includes a powerful magnet that can be used on the metal surface of a point-of-sale terminal.

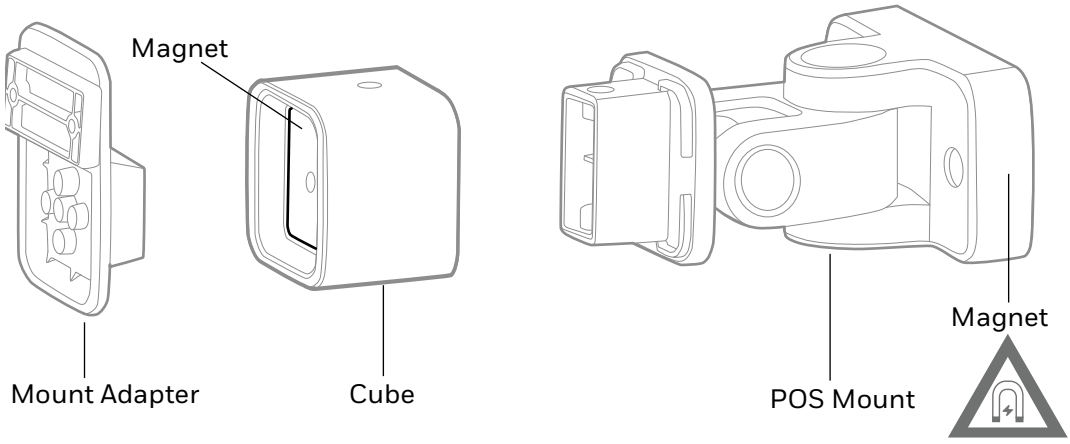

Features

Note: *The wall and POS mounts are shipped with the components assembled.*

8. Remove the expansion port cover and base from the scanner (see page 2).
9. Attach the mount adapter to the scanner using the two screws provided with the kit.

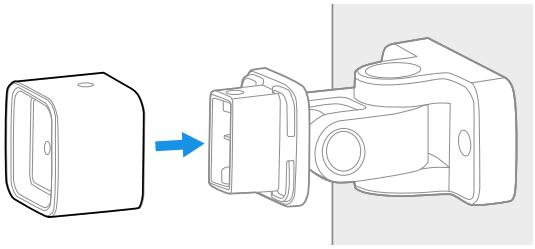

Note: *Both mounts can be set up so that a scanner is removable (proceed to Step 10) or fixed in place (skip to Step 11).*

10. For a flexible assembly that allows you to remove and then reattach the scanner using the magnet in the cube:
    a. Position the cube on the mount.

CHAPTER

3 VERTICAL STAND

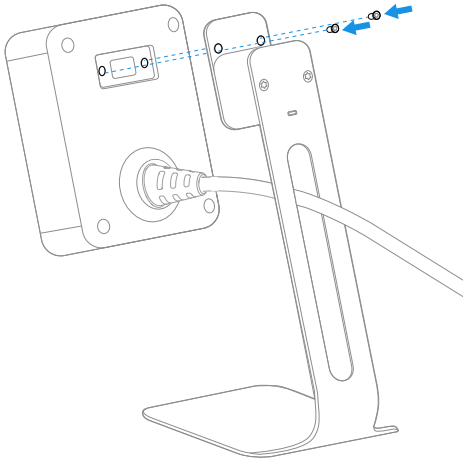

The Genesis XP vertical stand (STND-18R06) allows the flexibility of a mounted yet movable scanner for counter or tabletop use.

Install the Vertical Stand

1. Remove the expansion port cover and base from the scanner (see page 2).
2. Optional: thread the scanner cable through the channel in the stand.

3. Attach the scanner to the vertical stand using the two screws provided.
