Honeywell Announces Updates to Honeywell Operational Intelligence

Honeywell is pleased to announce new commercial packaging for its base Standard package and all new functionality and mobile workflows in its Asset Check Out/Check in solution.

Customers need accountability and visibility to their assets to ensure worker productivity and job satisfaction. Honeywell Operational Intelligence Check Out/Check in now supports a worker mobile application that makes this process incredibly simple.

Honeywell Operational Intelligence Standard cloud package is a great SaaS solution for customers who currently or in the future will need to centrally manage Honeywell mobile computers, scanners, and printers.

Packaging Retirement Notice

As part of this notice Honeywell is retiring support of the On Premise Professional, Enterprise and Service Management solutions. Honeywell will continue supporting it's On Premise offering of Operational Intelligence Standard subject to additional internal approval. Please reach out to your Honeywell sales associate for details.

For additional information on Operational Intelligence, please visit the Operational Intelligence webpage [HERE](#).
