

ZEBRA VisibilityIQ

Foresight

Stay ahead of your business needs with Zebra's VisibilityIQ Foresight

Your devices are the backbone of your operations, and when they're not performing at their best, your business feels the impact. Managing hundreds or even thousands of mobile computers, printers, and batteries is no small task. But here's the challenge: a standard Enterprise Mobility Management (EMM) system alone can't give you the predictive insights you need to make truly data-driven decisions.

Empower Your Team with Smarter Device Insights With Zebra VisibilityIQ™ Foresight, you get more than just basic device management—you get unmatched visibility into the health and utilization of your Zebra devices. From historical data trends to operational insights and actionable predictive intelligence, Foresight equips you with the tools to:

- Prevent employee downtime by addressing issues before they escalate.
- Boost efficiency across your operations by understanding device utilization.
- Cut costs by making informed, proactive decisions—all within a single, intuitive dashboard.

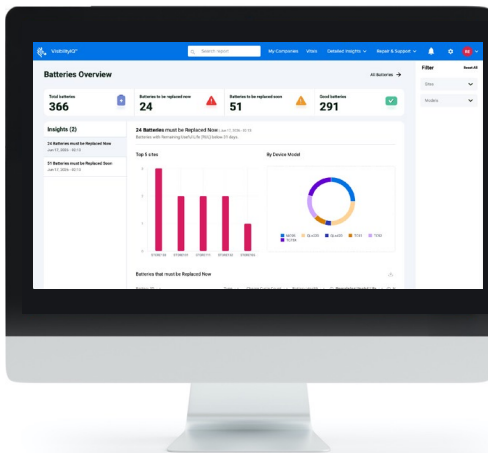

Why Settle for Reactive When You Can Be Proactive?

Zebra VisibilityIQ™ Foresight puts you in control of your devices and your business outcomes. With insights that go beyond the basics, you'll empower your team, optimize your operations, and stay one step ahead. Make smarter decisions, reduce disruptions, and elevate your business with Zebra VisibilityIQ™ Foresight.

A full view of your mobile device health

Get more out of your investment. Understand your entire fleet of mobile computers in one comprehensive view to prevent employee and device downtime. Know the state of your device health and utilization while getting historical trends and analytics to plan for device repair or replacement.

Manage Your Battery Health

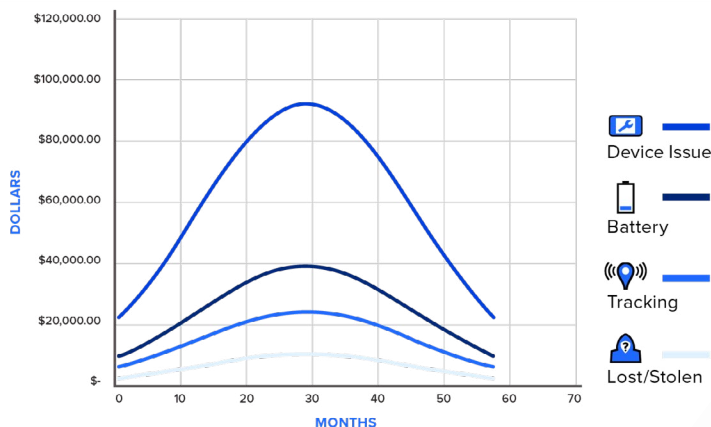

Eliminate mid-shift battery swaps with data on remaining life of your batteries, inventory levels and which batteries need to be taken out of circulation and replenished.

Protect the health of your printers

For optimal field performance

Keep track of the health of your mobile or stationary printers. Save time and repair costs by avoiding physical site visits for your printer issues and instead locating with remote health insights.

Monthly Normal Distribution of Savings

Expand the impact of Your EMM with insights

It's More than an EMM

Zebra VisibilityIQ™ Foresight goes beyond simple device management. It delivers instant, data-driven intelligence powered by the Zebra Data Service to help you optimize availability, enhance productivity, and make smarter operational decisions. With predictive analytics and historical trends, VisibilityIQ Foresight proactively identifies potential issues before they impact performance — reducing downtime and uncovering cost-saving opportunities.

What if I already have an EMM or in-house system?

Zebra VisibilityIQ Foresight complements your existing setup by integrating with your MDM to combine its data with Zebra's unique sources, such as contracts, repair systems, and IoT agents. This creates a single, easy-to-read view that provides the actionable insights your current system can't deliver alone. And if you don't have an MDM, VisibilityIQ Foresight can still provide comprehensive device intelligence on its own.

ZEBRA VisibilityIQ Foresight

Where EMM Data and Cloud-based Visibility = Business Intelligence

EMM

Focuses on the administration, orchestration, and management of devices across the organization

INSIGHTS

Zebra VisibilityIQ Foresight

Provides reports, insights, and actionable recommendations

- Device health of inventory
- Historical trends to aid planning
- Predictive analytics to assist in business operations

Streamline operations with Zebra's APIs

Leverage key data points like device health, utilization and support by integrating them into your own management systems to provide a customizable view of your business.

Why Zebra?

Zebra is always innovating to earn our role as your trusted partner—a role 50 years in the making. From hardware and devices to software and solutions, trust Zebra to solve your challenges and exceed your operational goals.
