

Workcloud Communication Profile Manager

Today's fast-paced work environment requires equally fast-paced, seamless and secure communication. With Zebra Workcloud Communication Profile Manager, empower real-time communication by simplifying how your frontline employees access essential information, using preconfigured profiles on their mobile devices. Enable device sharing, simpler user management, and more secure user provisioning and authentication.

Seamless Integration. Easy and Secure Device Sharing

Enhance your Workcloud Communication solution set with Profile Manager to ensure maximum flexibility and security for work and role selection.

Share devices with multiple employees and automatically configure each to manage the individual worker's role and needs

Simplify the management of each user and save administrators' time to complete other high-value tasks

Ensure secure and simple user provisioning and authentication, enabling any enterprise device to recognize each user seamlessly

Get Your Workforce up to Speed

Enable your employees to log into a device that is preconfigured and set up with their relevant profile and everything they need to fulfill their daily tasks.

Dynamic role switching

Accommodate staffing challenges, scheduling issues or demand needs

Intuitive user experience

Make it easy for employees to log in and navigate role switching during busy shifts

Seamless device transfer

Maintain continuous workflows by allowing users to hand off devices to the next user mid-shift or once they clock out

Convenient real-time decision making

Make it simple for employees to switch roles and access role-based information according to workload or demand
