

How to Retain Your Front-Line and Your Customers

Discover why unified collaboration is the key to satisfying workers and shoppers

What Frays Your Front Line?

You spend weeks finding new store associates and managers only to deal with high turnover. This revolving door of frontline workers can weaken your customer service and significantly strain your existing workforce. Grocery employees are stretched thin as it is, covering labor gaps and keeping pace with customer demands. To make matters worse, they struggle with a lack of modern tools, fractured communication and a deluge of disorganized tasks—which is among their top reasons for quitting.

7 Ways Groceries Can Rebound

When asked to define success, 69% of front line workers cited their ability to help customers and 49% chose getting tasks done⁴.

With Zebra Workcloud Sync™, they can help customers and be more productive via one secure, intuitive app that provides quick answers, clear priorities and instant communication to conquer work and wow shoppers.

Workcloud Sync offers the seven must-haves to win over a modern workforce.

Simplify Work

Offer associates and managers modern collaboration and execution tools

Minimize Training Time

Reduce friction with a familiar and friendly UI

Foster Collaboration

Help workers help each other through instant voice/video calling, push to talk, PBX calling, multimedia messaging and forums

Find Answers and People Fast

Locate workers in real time on a map and quickly access backend data systems

Replace Multiple Devices

Let one robust app free workers from the burden of using multiple devices

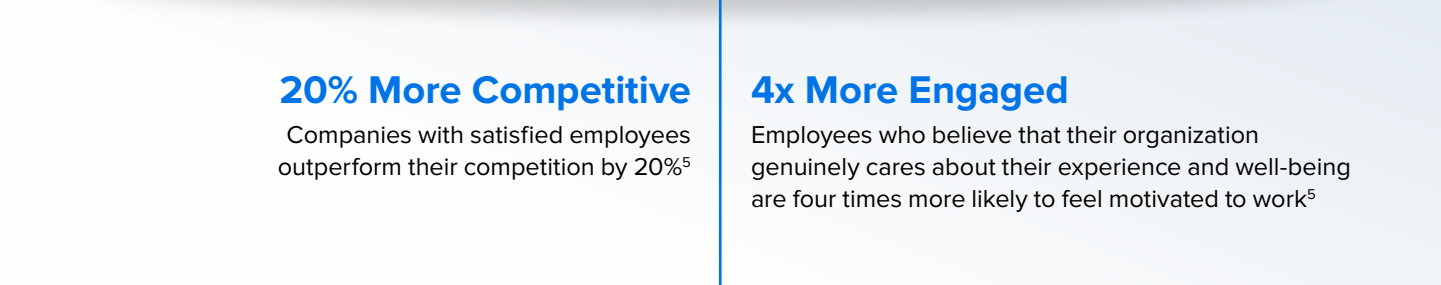

Protect Workers

Prioritize safety with location tracking and emergency communication

Clarify and Automate Priorities

Save everyone time with personalized to-do lists, automated tracking and two-way dialogue for clarification

Invest in Your Front Line and They'll Invest in You

Remove the Friction Points that Frustrate Workers

Let us show you how Workcloud Sync can elevate your workforce retention rates and results. Based on decades of real-world retail experience, Workcloud Sync offers the next generation of front-line collaboration:

Push-to-talk	Location services
Voice/video calling	Forums
Multimedia chat	To-Dos

And more on a single, secure application.
