

Zebra Workcloud Sync™

Improve Frontline Collaboration and Boost Customer Satisfaction

Overworked and pushed to do more with fewer resources, today's store associates are under more pressure than ever before. That's why we've created Workcloud Sync, a transformative real-time collaboration platform that serves as a central hub for teams to communicate, share information, and connect on important activities. Sync up your frontline with the tools they need to work effectively as a cohesive team and provide today's customers with the world-class retail experience they deserve.

How Workcloud Sync Transforms Collaboration for Store Associates:

- 1 Broadcast:**
Issue critical communication like a product recall to workers storewide for faster response.
- 2 Video/Voice Calls:**
Attend team meetings from anywhere in the store, receiving important information on the go
- 3 Multimedia Chat:**
Send a note to an employee in the back room to help locate an item for a customer.
- 4 Emergency Communication:**
Keep teams safe with emergency duress communication that bypasses existing calls to take care of emergencies quickly.
- 5 Voice PBX:**
Answer incoming customer calls around product availability or curbside pickup orders from anywhere in the store.
- 6 Forum:**
Celebrate the employee of the month and store successes.
- 7 Dynamic Role Selection:**
Fill labor gaps by letting workers effortlessly switch departments and roles from the same device.
- 8 To-Dos:**
Prioritize tasks and BOPIS rush orders; automatically track progress and completion.
