OK Zebra, page the doctor
on call to room 501.

Challenge
and Solution

Unlock the power of hands-free voice

Imagine the productivity gains when your team can work without stopping to touch a screen or device.

Hands-free voice has the potential to transform workflows, enhance customer service and patient care — but only if the solution:

Integrates smoothly into your current operations

Feels natural and intuitive for your users to adopt

Deploys with ease without extra infrastructure or management silos

Delivers reliable performance and doesn't compromise data accuracy

We set out to deliver just that.

Introducing the WS1 Series Bluetooth Communication Badge

This hands-free device pairs with Zebra and Android/iOS Bluetooth devices, allowing staff to streamline communication and task management, effortlessly manage inventory and improve customer service or patient care.

Add hands-free voice to Bluetooth-enabled...

Zebra Android
mobile computers
and tablets

Android
smartphones
and tablets

iOS
smartphones
and tablets

Boost retail efficiency with hands-free voice

Using voice-enabled applications running on the host device, workers can simply use natural language to ask for what they need, boosting productivity and enabling faster and more efficient communications and collaboration.

Use speech to launch, access and control voice-enabled applications...

“Find SKU 72017 in stock”

“Ask Alex to open another register”

“What’s my next task?”

“Call the back room”

“Confirm end cap 7 has been restocked”

Enhance healthcare efficiency with hands-free voice

Using voice-enabled applications running on the host device, clinical and non-clinical staff can simply use natural language to ask for what they need, boosting productivity and enabling faster and more efficient communications and collaboration.

Use speech to launch, access and control voice-enabled applications...

“Room 202 needs additional blankets”

“Page the doctor on call to Room 501”

“Notify the discharge desk I’m coming with a patient”

...Plus speech-to-text note taking at the patient bedside, during procedures and more

OK Zebra, call the pediatrician on the floor to room 105.

All the right features for hands-free voice

Flexible Connectivity

Works with any Bluetooth host device: Zebra TC/HC/ET Series, Android and iOS devices

Easy to Deploy and Manage

Operates as a Bluetooth peripheral — not a standalone device; no additional infrastructure needed

Fully Hands-Free

Embedded wake word and duress word for instant activation without reaching for the device

Crystal Clear Voice

Integrated noise-suppressing mic and ultra-loud speaker; headset jack*

Long-Lasting Power

Removable battery supports back-to-back shifts

Multimodal Feedback

Audio alerts, front and top facing LEDs, haptics

Rugged and Ready for All Day Use

IP65 sealed and survives 4-foot drops to concrete

Scalable Charging Solutions

4 and 20 slot device cradles, 6 and 30 slot battery chargers

* Retail version only

Ok Zebra, call the manager to help me void a transaction

Key Features

Comprehensive enterprise-class voice support

High quality voice. Count on crystal clear voice interactions with advanced noise cancellation, fine-tuned acoustics and high-quality speaker and microphone

Totally hands free. Go hands-free with Push-to-Talk: compatible with Zebra's Workcloud Sync Push-to-Talk application

Automatic activation. Instantly activate the badge hands-free with a wake word "Ok Zebra"

Instantly call for help. Get assistance by pressing the red Duress Button or speaking the safe word

Stay in the know. Never miss an update with haptic alerts, audio alerts, front-facing ring notification and top-facing LED notifications

Listen to messages. No need to touch the device to hear your messages with voice text-to-speech: "Text from manager: 'restock endcap'" or "Text from pharmacy: 'prescription is ready'"

Silent mode. Silence calls when they're not appropriate with Do Not Disturb toggle switch

Compact. Comfortable. Completely Wearable.

Designed for extreme comfort

Weighs less than two ounces and is less than two inches square and just over a half inch thin

Flexible wearing styles

Clip the WS1 Series on a lapel, scrubs, collar or placket; or wear it around the neck on a lanyard – workers won't even notice they're wearing it

Disinfectant-ready housing

Easy to clean between shifts or patient visits; healthcare model is fully sealed

Lanyard towel bar

Clip mount (included standard)

Easy to manage

EMM Support

Manage the WS1 Series with your Enterprise Mobility Management (EMM)* running on the host device – getting the simplicity of a single management platform

Bluetooth Peripheral

WS1 Series is not a standalone device. That means there are no additional servers, separate wireless network or other backend infrastructure needed

Effortless Pairing

Pair with NFC-enabled Zebra terminals and most Android mobile devices with just a quick tap - or Scan and Pair with a Zebra mobile computer

Bluetooth 5.4

Efficient, stable and secure wireless connections for the most robust communications

The WS1 Series is an easy-to-deploy peripheral that adds value to your workflows — without adding complexity to your operations

The uptime your operations can rely on

Rugged design

Built to last and lower your total cost of ownership – drop it, use it in dusty areas or out in the rain

- Survives drops to concrete
- Endures 1,000 1.64 ft (0.5m) tumbles
- IP65 sealed
- Wide temperature range

Removable full-shift battery

Get up to 10 hours of continuous speech on a single charge – and simply swap in a fully charged battery when the battery runs low

- Fast charging support
- Modular, scalable charging solutions – create combinations of 4-slot device cradles and 6-slot battery cradles

Reduce workflow disruptions and lower repair costs with a Zebra OneCare plan

Zebra OneCare covers it all, including accidental damage, plus live technical support to keep devices running at peak performance

OK Zebra, notify the
discharge desk that I'm
coming in with the patient.

Accessories

Next Generation ShareCradle (retail, healthcare)

4-Slot Device Cradle

6-Slot Battery Charger

Higher density
saves valuable
space in the
back room

Faster charging
means less
downtime and
devices are

available on black retail
model only

3.5mm Headset

USB-C Charge Cable

Cover everything with a Zebra OneCare Maintenance Plan

Keep your operations running smoothly with Zebra OneCare Essential — the hassle-free, all-in-one maintenance solution for unmatched device performance and peace of mind

Zebra OneCare Essential™

Coverage includes:

- 3- or 5-year protection
- Covers **everything**, *no questions asked*: accidental damage, functional failure and normal wear and tear
- Live technical support from 8am to 5pm in your time zone
- 3-day turnaround time on repairs and more

How does your business benefit?

- **Lower TCO:** Eliminates unplanned and unexpected costs
- **Faster ROI:** Increases device uptime and utilization, reducing unplanned workflow disruptions due to device-related issues
- **Get peace-of-mind:** Know you are protected with an easy path to resolution if something goes wrong

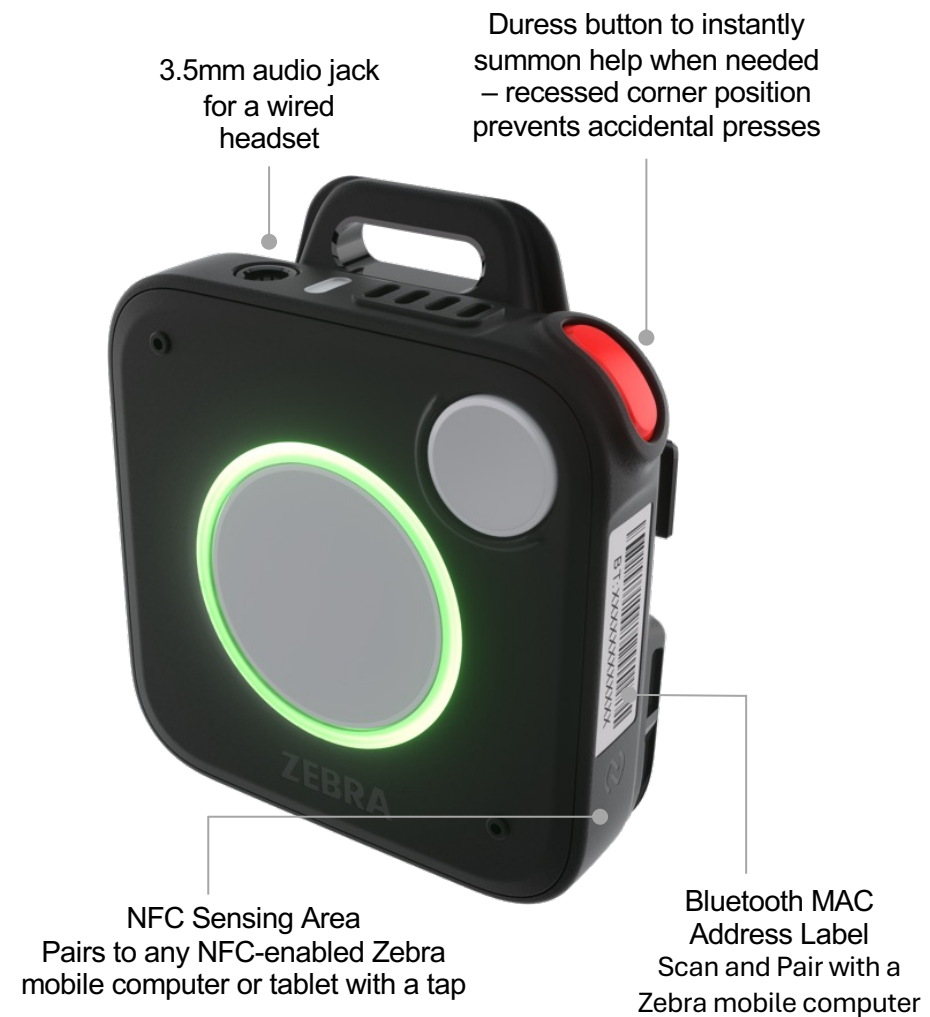

OK Zebra, confirm we have the prescribed medicine in stock.
