

What is Proactive Battery Replacement Service...and why do you need it?

Because a battery that cannot hold a charge is one of the top five common factors that lead to physical device issues and costly unplanned mobile computer downtime.¹

The Challenge

The high cost of aging batteries that fail mid-shift

When the batteries in your Zebra mobile computers age and can no longer hold a full charge or power a full shift, the costly unplanned downtime results in...

Reduced workforce productivity

Up to 50 minutes of productivity is lost per worker per battery failure incident

Increased capital costs

You need to purchase a larger spare battery pool due to lack of visibility into battery health

Increased administration costs

You need to spend time purchasing individual batteries as needed—and replenish the battery pool

Reduced mobile device ROI

Every time your device is out of service, the value of your devices and your mobile computer investment erodes

Increased IT support costs

You need to troubleshoot battery issues, triage each device and manage a large spare battery pool

The Solution

Keep all your batteries healthy...all the time

With Proactive Battery Replacement Service, an enhancement to your Zebra OneCare™ plan, it's easy to eliminate costly downtime due to aging batteries—we do all the work.

Constant 24x7 monitoring

We monitor the health of the batteries in your Zebra mobile computers by collecting and analyzing over 25 battery metrics

Automatic battery shipment

When we determine that batteries are within 30 days of becoming unhealthy, we ship new batteries to the right sites

Authorized Zebra batteries

All batteries are not created equally—we only ship genuine Zebra batteries that provide full shift power and optimal device performance

At-a-glance dashboard

Want to see the status of all your batteries? Just view your cloud-based VisibilityIQ™ dashboard, anywhere and anytime

End-to-end battery management

We do it all—the Zebra Services agent app monitors battery health and sends a notification to the device user when the battery reaches the end of its life. Zebra ships new batteries in time to prevent battery-related downtime and ensure new batteries are installed to optimize your investment in the mobile device.

Your Benefits

How will your business benefit from Proactive Battery Replacement Service?

Less device
downtime,
higher device
ROI

No battery-
power related
lost worker
productivity

Lower
and
predictable
battery costs

Lower
administration
and support
costs

One source
simplicity
from the
manufacturer

**Add this enhancement to your Zebra OneCare plan today
...and get the benefits of Proactive Battery Replacement Service tomorrow.**
