

The ZEC500 Android Enterprise Computer

One Device,
Infinite
Frontlines

You need computing power in so many places—whether it's powering digital signage or running full workstations. Introducing the ZEC500, the Zebra Android Enterprise Computer designed to do it all. Whether your setup is simple or complex, the ZEC500 gives you the performance and connectivity you need to build the right solution. And if you're already using Zebra mobile computers and tablets, it fits right in—helping you get more value from your tech and boosting workforce efficiency.

See how you can put the ZEC500 to work in your industry.

Retail

75%

of shoppers
expect unique,
tailored in store
experiences—the
ZEC500 can help
you deliver.*

Give your customers the personalized experience they crave with the ZEC500.

Turn heads, drive sales and keep customers coming back with the ZEC500. You can give customers the convenience of self-service options, while digital signage makes it easy to showcase deals and personalized content in real time. Associates can also cast content from their mobile devices to larger displays—whether at the front of the store to highlight promotions and assist customers, or in the back room to boost productivity.

Where can you put the ZEC500 to work in your store?

- Digital signage/ media player
- Retail Media Networks
- Kiosk/self-service
- Training stations
- Assisted selling
- Workstations

The ZEC500 is ideal in:

Food Markets • Grocery Stores • Drug Stores • Mass Merchants
Department Stores • Specialty Boutiques

Retail Media Networks

Create in-store ad spaces to reach shoppers at the moment they're considering a purchase.

68%

of consumers say digital signage would influence their decision to buy advertised products.*

Retailers are reimagining the store as more than just a place to shop—it's now a revenue-generating media channel and a platform for deeper customer engagement.

With the ZEC500, you can power in-store retail media networks that deliver targeted messaging and brand content at exactly the right moment in the customer journey. From personalized offers at the entrance to timely product suggestions near checkout, digital displays help shoppers discover relevant deals and make buying decisions. The result? A more engaging shopping experience that increases basket sizes—while adding a new stream of high-margin advertising revenue.

Turn your physical footprint into a powerful marketing asset.

Hospitality

71%

of hotel guests
are more likely
to choose hotels
with self-service
options, such as
check-in.*

Get ready to improve your guest's experience.

From effortless self-service options to eye-catching, centrally-managed digital signage, It's designed to elevate every moment of your guests' stay. Easily showcase your amenities, promotions, and events—right when and where guests need them. And with streamlined access to training, your staff stays sharp, confident, and ready to deliver standout service that keeps guests coming back.
