

Elevate Care with the Right Mobile Printers

How can your mobile printers do more to improve patient safety? If they're not made for today's fast-paced demands, they can't. And that could leave you prone to errors that can harm patients, budgets and timelines. Find out what improves patient safety at the point of care.

Measure Your Current Printers' Efficiency and Efficacy

See if your needs have surpassed their capabilities:

- Are your printers durable, but lacking enduring connectivity?
- Are they so slow to wake up that they're a wake-up call for change?
- Do they surprise you with dead batteries and short-lived power?
- Are they a backdoor for unwelcomed visitors to enter your network?

Focus on Patients Instead of Technology

End the disruptions that pull you away from patients and introduce the risk of errors. The ZQ600 Plus Healthcare Series gives caregivers the accuracy, ease and durability they need with advanced features made to improve patient safety and increase quality time.

Awakes STAT

Boots up in a split second, ready to print wherever you are

Protect Patient Information

PrintSecure blocks unauthorized users and secures patient data

Wipes Out Infection

Disinfectant-ready to withstand wipe downs

Stays at the Bedside not IT's side

Intuitive icons and a bigger display help you quickly resolve issues without IT

Knows no Bounds

Wi-Fi™ dead zones? Gone with 802.11r fast roaming

Speedy Specimen Collection

Process patient data at blazing fast speeds with 802.11ac Wi-Fi™

Promote Good Printer Health with the Right Supplies

Get the right printer output every time with Zebra Certified Supplies

Greater Staying Power

33% higher battery capacity powers full-shift productivity*

A Remedy for Complex Management

Remotely command and control your world of printers from your console

On-Demand Color for On-Point Identification

Immediately mark and verify the correct specimen label with colored labels

An Upgrade that Won't Upset Budgets

Change your printers without having to change your QLn or ZQ600 accessories

Turns on Continuous Uptime

Battery analytics alert you in advance when a battery needs replacing

Made for Healthcare
