

Give Your Supply Chain Customers Greater Temperature Visibility

Build them a solution for confident decision making

Zebra Electronic Sensors are connected dataloggers that provide accurate temperature and location exposure data continuously in near real time. This data enables your customers to identify any temperature excursions throughout the supply chain and take quick action to maintain product quality and drive efficient operations.

Help Customers Drive Profit and Product Quality from Food to Pharma and More

Cost-Effective Visibility of Temperature Data

Zebra Electronic Sensors are tough, reusable sources of temperature data that provide valuable insight to product condition throughout the Cold Chain.

Quality Compliance and Actionability

Access near real-time data and insights without manual intervention leveraging Bluetooth® Low Energy v5.2 for high-speed data transmission.

Uninterrupted Productivity

Zebra Electronic Sensors are easy to configure to each product stability profile and simple to integrate into systems of record which greatly reduces manual intervention to implement in workflows.

Easy Data Integrability with Trusted Security

Zebra Electronic Sensors enterprise-level data platform is designed with a security layer to ensure data integrity and authenticity.
